- ❖ When I was 13, I always wondered how the universe works and its impact on life on earth. This inclined me to research and learn more about these Mystical subjects and study Vedic Astrology.
- ❖ At a very early age, I started my Astrology journey professionally and completed certain Certifications from reputed Institutes & Guru's in Mumbai, India.
- ❖ When I started learning Indian Vedic Astrology, I was fascinated by such a divine framework of cosmic theories that help me to understand about Karma Theory.
- ❖ Today, I respect Vedic Astrology from the core of my heart and acknowledge its existence by being thankful to the sages who discovered and offered such a science.
